

GENERAL PURPOSE GRINDERS

Standard Features

- Hardened cutting chamber
- Tilt-back soundproofed hopper
- Blower/cyclone package
- Staggered/Open rotor design
- D2 Steel cassette knives/Open Knives
- Drop-down screen cradle
- Reversible screen
- High Amp Alarm
- Solid rotor pulley
- Safety Interlocks

AutoGrind General Purpose Grinders are designed for central or beside the press operation. They are the perfect choice for injection molding, blow molding and extrusion. The standard soundproofing makes these the quietest grinders on the market. The swing away material blower and cyclone are also standard with stainless steel tubing. Heavy duty construction with hardened blades makes Autogrind the most trouble free grinders on the market today.

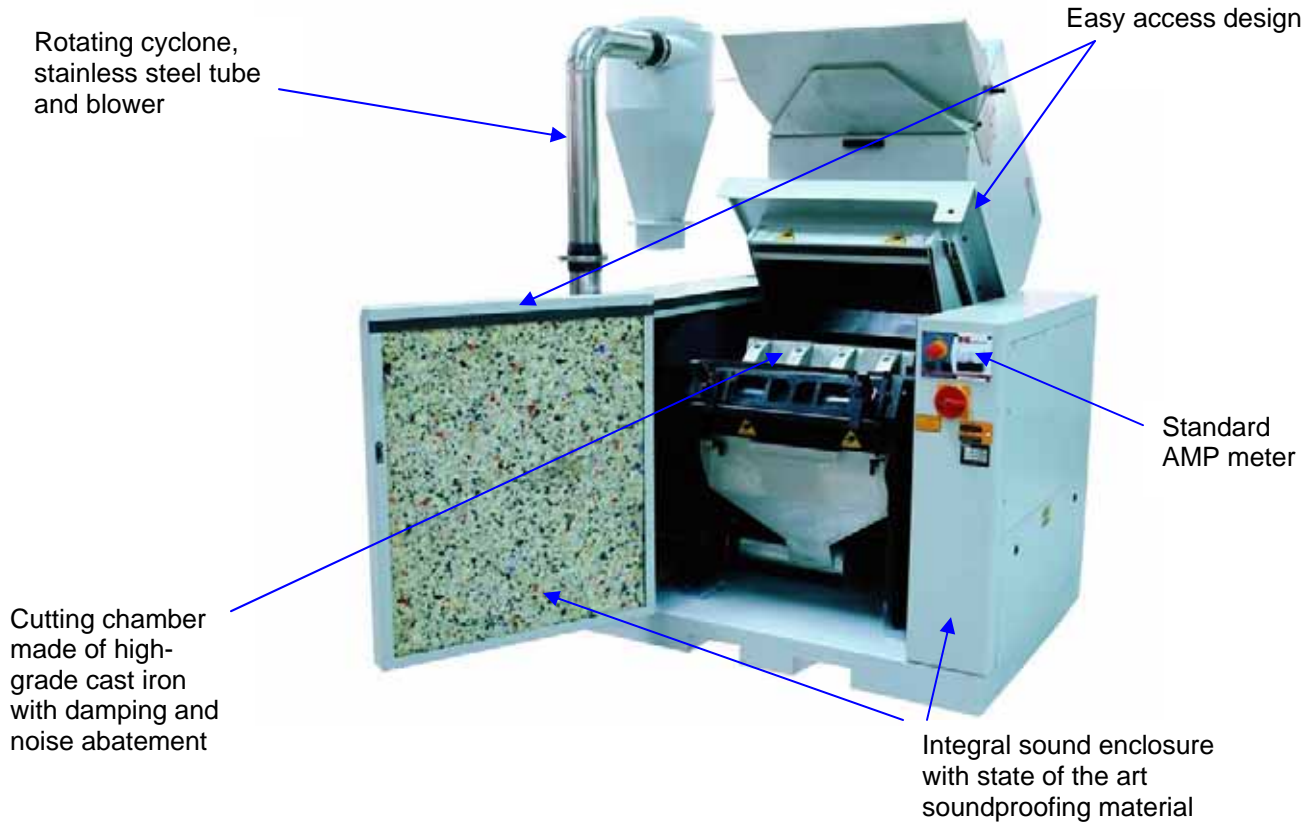

Staggered Blade Closed Chamber

Angled Cut Open Chamber

| MODEL | PPH | CHAMBER OPENING L x D | H.P. | CUTTER | BLADES FIXED | BLADES ROTATING | HEIGHT | WIDTH | DEPTH | HOPPER OPENING W x H |
